### **Curriculum Vitae: (as of 04/12/2016)**

Dott. Maurizio Signorini, born in Parma 08/09/1968, graduated in Dentistry at the University of Pavia.

Holder of the homonym dental office, site in Barbania (TO), where he carries out the Odontostomatology activities in all its specializations, with particular dedication to advanced oral surgery.

All the odontostomatological activities of Dr. Signorini Maurizio is carried out with the aid of magnifying optical systems, which are the cornerstone of the new knowledges in the field of microsurgery.

He made several post-graduate refresher courses in all specialties.

He already collaborated with Dott. Francesco Martelli's Institute of Microdentistry in Florence, where he deepened his knowledge on laser applications and the operating microscope.

Already active member AIOM (Italian Academy of Microscopic dentistry) and 'co founder of Microscopic Dental Club (International Working Group for the dissemination of knowledge in the discipline of the operatory microscopy).

He is a National and International speaker on topics related to the use of the operatory microscope in Dentistry.
